HARD - SKILLS

Milana Gabbassova

Front-End Developer

Hi, I'm Milana—a passionate front-end developer eager to create dynamic, interactive web experiences. I specialize in HTML, CSS (SASS), JavaScript, and GSAP to craft sleek, responsive websites. I'm always eager to learn and improve my skills. Excited to join a team where I can collaborate, contribute, and continuously grow as a developer.

EXPERIENCE

Web Developer – Srishti Foundation

(October 2024 – April 2025 | Remote)

- Developed a custom CMS, building a scalable and efficient backend to manage website content dynamically.
- Designed and implemented a relational database, using SQL for structured data storage and retrieval.
- Built backend functionality using PHP, handling authentication, data processing, and content management.
- Conducted QA testing and debugging, ensuring smooth performance, security, and reliability.

Drupal Developer (Internship) | Fanshawe College

(February 2025 – April 2025 | London, ON)

- Developing structured web solutions using Drupal 11 CMS, focusing on content management and backend workflows.
- Customizing layouts, modules, and templates for improved accessibility and enhanced usability.
- Implementing accessibility and usability best practices to improve overall user experience.

Frontend Developer – Industry Night Website | Fanshawe College

(September 2024 – December 2024 | London, ON)

- Developed the frontend of the website, ensuring a responsive and visually appealing design using HTML, CSS, and JavaScript.
- Implemented dynamic content rendering, learning to pull and manipulate data from JavaScript efficiently.
- Optimized the website for different screen sizes, ensuring seamless responsiveness and cross-browser compatibility.
- Collaborated with a team, coordinating with designers and backend developers to integrate functionality smoothly.
